DESCRIPTION AND INTENDED USE

Occupational sunscreen lotion for adults who work outdoors. Designed to be used every working day as part of a workplace sun-safety programme, together with shade, protective clothing, a broad-brim hat or hard-hat brim with neck flap, and UV-filter safety eyewear.

DIRECTIONS FOR USE

- Apply generously to dry skin about 15 minutes before going outside.
- Use about a teaspoon (5 ml) for the face, ears and neck, and the same for each exposed arm or leg.
- Reapply at least every 2 hours, and straight after heavy sweating, washing or towel-drying.
- Use with shade, long sleeves, a hat and sunglasses. Sunscreen alone is not enough.

WARNINGS

- For external use only. Avoid contact with the eyes; if contact occurs, rinse well with clean water.
- Stop use and seek advice if a rash or irritation develops.
- Keep out of reach of children. Not for babies under 6 months.
- Do not stay too long in the sun, even while using sunscreen.

INGREDIENTS (INCI)

[per supplier COA]. The full ingredient list follows the manufacturer's certificate of analysis and is printed on every pack. If you have a known allergy, read the label or phone 082 868 7762 before use.

STORAGE

Store below 30 °C, out of direct sunlight. Keep vehicle stock out of the sun (cubby or cooler box, never on the dashboard). Close after use.

SHELF LIFE

Expiry date printed on every pack. Shelf life is set from the manufacturer's stability data in the final pack; use by the printed date and within the period after opening shown on the pack.

BATCH TRACEABILITY

Every pack carries a batch code and expiry date. Check any batch, or report a concern, at sp.healthbrands.co.za/info. Each batch is released against the manufacturer's certificate of analysis, and batch records are kept for recall and complaint follow-up.

REGULATORY STATUS

Cosmetic product under the Foodstuffs, Cosmetics and Disinfectants Act 54 of 1972. Not a medicine and makes no medicinal claims. Manufactured for Health Brands SA (Pty) Ltd. The label shows net content, directions, warnings, the full ingredient list, batch code, expiry date and the responsible party.

FORMULATION COMMITMENTS

- Aim: formulating without oxybenzone and octinoxate.
- Aim: a light, non-greasy finish that rubs in clearly on darker skin types.
- Aim: packaging free of PVC and declared free of BPA and listed phthalates.
- Commitment: no claim is printed or published until the matching test report is held.
- Formulation aims are confirmed only once the final INCI list and test reports are in hand.

TECHNICAL AND COMPLIANCE STATUS

Test reports and certificates are listed with their honest status (held, in place or not yet held) at sp.healthbrands.co.za/product-data-sheets/technical. Nothing is claimed before the evidence is held.
