SUN PROTECT™
OCCUPATIONAL & CLINICAL SUN SAFETY

FOR EMPLOYERS

A sun protection programme, not just tubes.

Dispenser on loan, scheduled refills, posters, a quarterly audit visit and a training refresh, in one monthly Site Pack per 25 workers.

Starter

R 2,950
a month per 25 workers, excl. VAT
(R 3,392,50 incl. VAT)

4 L a month of SPF 50 refills
7.6 ml per worker-day

Partial-shift coverage

Standard

R 5,450
a month per 25 workers, excl. VAT
(R 6,267,50 incl. VAT)

10 L a month of SPF 50 refills
19 ml per worker-day

Most of the shift

Full Compliance

R 8,450
a month per 25 workers, excl. VAT
(R 9,717,50 incl. VAT)

18 L a month of SPF 50 refills
34 ml per worker-day

Full-day coverage

Coverage is measured against a reference of about 35 ml per worker-day (2-hourly reapplication over a full outdoor shift), based on 25 workers and 21 working days a month. 12-month term; dispenser on loan (R650 refundable deposit per unit).

What the employer gets

- Sunscreen at the point of work, where crews actually use it
- Posters, toolbox talk and supervisor checklist for the safety file
- Usage records per site for audits and tender returnables
- A UV risk assessment record (form SP-RA-01)

Why it matters

Section 8 of the Occupational Health and Safety Act requires a workplace without risk to health as far as reasonably practicable. Solar UV is a recognised outdoor hazard, so it belongs in the risk assessment and control plan. General information, not legal advice.

Start with a free UV risk assessment

Five minutes online: a risk band, ranked actions and a PDF for the safety file. Tubes from R 109 excl. VAT (150 ml).

Sunscreen is one control. Shade, scheduling and clothing come first, and SPF 50 covers the skin they cannot.
